

Notice to the Market – 15/17

Tariff adjustment – Copel Distribuição

Companhia Paranaense de Energia - Copel, a company that generates, transmits, distributes and sells power, with shares listed on the B3 (CPLE3, CPLE5, CPLE6), the NYSE (ELP) and the LATIBEX (XCOP), in compliance with CVM Instruction 358/2002, hereby informs its shareholders and the market in general that the Brazilian Electricity Regulatory Agency (Aneel), authorized today, at the 22nd Annual Public Meeting, the Copel Distribuição's tariff adjustment with an average effect of 5.85% to captive customers.

The tariff adjustment will be fully passed-through to the Copel Distribuição's tariffs as of June 24, 2017.

In addition, on June 13, 2017, Aneel rectified the net assets base amounts by R\$30.0 million (from R\$4,920.4 million to R\$4,950.4 million), and the depreciation amount by R\$1.2 million (from R\$337.5 million to R\$338.7 million). This reconsideration is based on the belief that commercial fines imposed on suppliers due to delays and breach of contract are not included in the acquisition cost and may not be considered as a benefit to the purchase, given that the purpose of these fines is to compensate for any possible losses.

Curitiba, June 20, 2017.

Adriano Rudek de Moura
Chief Financial and Investor Relations Officer
