

Material Fact - 02/19

Update on the construction schedule

Compania Paranaense de Energia – COPEL, a company that generates, transmits, distributes and sells power, with shares listed on B3 (CPLE3, CPLE5, CPLE6), the NYSE (ELPVY, ELP) and the LATIBEX (XCOP), hereby announces to its shareholders and the market in general that the Colíder Hydroelectric Power Plant is operating at the nominal load for the reliability test, which is the final requirement for the operational startup of generation unit 1. The Company also announces that it has completed all the scheduled stages for the test run period of the Santa Bárbara d'Oeste substation, belonging to the SPE Mata de Santa Genebra.

Generation Unit 1 of the Colíder Hydroelectric Power Plant

The Colíder Hydroelectric Power Plant successfully completed the commissioning testing of generation unit 1 and has been operating at the nominal load for the reliability test of 96 hours of uninterrupted operations since February 26, 2019. This test is intended to guarantee the operational safety and perfect functioning of the unit. After the reliability tests are completed, it is necessary to await the approval of the National Electrical System Operator (ONS) and the authorization of the Brazilian Electricity Regulatory Agency (ANEEL), scheduled for the beginning of March 2019.

SPE Mata de Santa Genebra

On February 25, 2019, all the stages planned for the test run period of the Santa Bárbara d'Oeste substation (300MVar/-300MVar static compensator), belonging to the SPE Mata de Santa Genebra, allowing the operation of this substation under the Commercial Operation regime.

The SPE Mata de Santa Genebra is still awaiting the issue of the Temporary Release Document (TLP - Termo de Liberação Provisória) by the ONS, without prejudice to the Commercial Operation date. The TLP will allow the SPE Mata de Santa Genebra to receive a portion of the Annual Permitted Revenue (APR) related to the Santa Bárbara d'Oeste substation, in the amount of R\$10.8 million.

The project's total expected APR is R\$233.8 million, of which R\$117.1 million related to COPEL's stake, and full receipt is subject to the startup of the other stages of the project.

| Subsidiary / SPC | Auction | Signing of Contract | Enterprise | State | km | Subst | APR ¹ (R\$ million) | Concession Expiration |
|--|---------|---------------------|----------------------------|---------|-----|-------|--------------------------------|-----------------------|
| Mata de Santa Genebra Copel GeT - 50,1% Furnas - 49,9% | 007/13 | May-14 | TL Araraquara II - Bateias | SP / PR | 885 | 1 | 117,1 | 05.13.2044 |

¹ Updated according to Aneel Approval Resolution No. 2,408/2018 of 06.26.2018. Adjusted for Copel's stake.

Curitiba, February 28, 2019.
