

## IR 23/11

### COPEL takes four lots in Aneel transmission auction

In accordance with CVM Instruction 358/2002, Companhia Paranaense de Energia – COPEL, hereby announces to the market that in the Aneel Transmission Auction 006/2011 held at BM&FBovespa today, it won the right to build and operate the following lots:

Lot	TL (km)	Substation	RAP (BRL million)	CAPEX <sup>1</sup> (BRL million)	State	SPE	
A	798	1	49.4	520	RS, PR and SC	20% 80%	COPEL GeT ELETROSUL
E	136	2	17.7	195	PR	49% 51%	COPEL GeT ELEC NOR
F	28	1	13.0	111	PR	80% 20%	COPEL GeT ELETROSUL
I	365	-	26.6	360	MA	49% 51%	COPEL GeT ELEC NOR
<b>Total</b>	<b>1,327</b>	<b>4</b>	<b>106.7</b>	<b>1,186</b>	-	-	-

<sup>1</sup> Reference values used by Aneel

All projects are included in the Growth Acceleration Program (PAC) and therefore, are eligible for financing from BNDES. The extension of new high-voltage transmission lines totals 1,327 km. The commercial operation of these projects are scheduled for April 2014, 24 months after the signing of the concession contracts, whose duration is 30 years.

With the results of this auction, COPEL reaches a milestone for the fulfillment of its strategic business plan, which provides the addition of 1,000 km of transmission lines by 2015.

Curitiba, December 16, 2011.

Sincerely,  
Ricardo Portugal Alves
