

## Copel Distribuição's Extraordinary Tariff Revision

Companhia Paranaense de Energia - COPEL, in accordance with CVM Instruction 358/2002, hereby informs its shareholders and the market in general that today the Brazilian Electricity Regulatory Agency (Aneel) resolved on electricity distributors' Extraordinary Tariff Revision.

Copel Distribuição's average tariff revision approved by Aneel is 36.79% from March 02, 2015. Of this total, 22.14% is related to the quotas of the Electric Energy Development Account (CDE), and 14.65% to the repositioning of the costs with energy purchase.

The Extraordinary Tariff Revision occurs due to a series of events that significantly impacted the energy concessionaires' costs, which were not foreseen in the 2014 tariff increase, highlighting the increase of (i) quota of the CDE, and (ii) costs from energy purchases due to the Itaipu tariff increase (46.14%) and the high prices practiced in recent energy auctions.

Curitiba, February 27, 2015.
